EXPERIENCE

Frontend Developer – Credencesoft Pvt. Ltd.

Jan 2023 – Present

Bhubaneswar, India

- Designed, developed, and maintained responsive web applications using Angular, ensuring high performance and cross-browser compatibility.
- Built and enhanced cross-platform mobile applications using the Ionic framework, delivering a native-like user experience on Android and iOS.
- Integrated RESTful APIs to enable real-time data exchange and smooth business workflows.
- Optimized UI performance by improving component structure, reducing load times, and following best frontend practices.
- Collaborated closely with backend developers, QA teams, and product stakeholders in an agile development environment.

Graduate Trainee – NALCO.

Dec 2021 – Dec 2022

Bhubaneswar, India

- Developed and maintained web pages using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and responsive layouts.
- Supported procurement operations using SAP MM.

PROJECTS

The HotelMate Bizz

- Designed and developed a cutting-edge mobile application for the hospitality industry, significantly improving booking experiences for business travelers.
- Delivered a native-like experience on both Android and iOS platforms using Ionic.
- Enabled real-time communication and reservation management functionality.
- Reference: <https://thehotelmate-business-app.web.app/login>

Booking Engine

- Developed a customer-facing booking engine allowing users to book multiple rooms based on dynamic check-in and check-out dates.
- Implemented a clean, responsive booking flow to enhance usability and reduce user drop-offs.
- Built reusable Angular components to improve scalability and long-term maintainability.

TripVogue – Trip Planner

- Designed and developed a trip planner application enabling users to plan trips based on customized budgets.
- Built responsive and intuitive interfaces using Angular and Bootstrap.
- Focused on clean UI/UX and smooth navigation to improve user engagement.

The HotelMate Website

- Built a user-centric hospitality website using Angular.
- Enhanced the booking process with dynamic, responsive, and engaging UI components.
- Enabled users to explore hotel options and make reservations seamlessly.
