Technical Skills

- **Backend Development:** Python, Django, Django Rest Framework, RESTful APIs, JSON
- **Frontend Development:** HTML5, CSS3, Bootstrap, Material UI
- **Database Management:** SQL, MySQL
- **Containerization & Orchestration:** Docker, Kubernetes
- **Other Tools:** Visual Studio Code, PyCharm, Postman, Linux, Windows, Git, GitHub

Work Experience

TALENTRACKR

April 2024 – December 2024

Software Developer (SDE I)

Hyderabad, India

- **Engineered & Maintained Web Applications** using **Python Django**, leveraging the **(Model-View-Template) MVT architecture** to efficiently manage **models, views, and templates** for optimized backend operations.
- **Implemented CRUD Operations** for managing user profiles and application data using **MySQL**, ensuring a user-friendly experience for creating, reading, updating, and deleting records in the database.
- **Designed & Implemented 5+ Django Rest Framework APIs** for seamless data exchange between frontend and backend, integrating Django authentication for secure user login and registration
- **Optimized Database Performance** using **Django ORM** and **MySQL**, executing **optimized queries** for efficient **data handling** and **retrieval**, ensuring faster application response times.
- **Version Controlled with Git**, regularly committing code with detailed messages and submitting **pull requests** for **code reviews**, maintaining a clean and consistent **codebase**.

INTECH CREATIVE SERVICES

January 2022 – February 2023

Software Developer (SDE I)

Pune, India

- **Designed & Developed Responsive Web Pages** using **HTML, CSS, and Bootstrap**, ensuring **cross-device** and **cross-browser compatibility** for a consistent and seamless **user experience**.
- **Integrated Dynamic Data** into frontend views using **Django templates** and **MySQL**, applying custom logic to render **user-specific content** while ensuring **modularity** for future scalability.
- **Utilized Django Templates** to **dynamically render backend data** to the frontend, maintaining a clear **separation of concerns** and ensuring efficient and accurate display of **user-specific content**.
- **Integrated Frontend with Django Authentication System**, managing **secure user login** and **session management** to restrict access to authorized resources only.
- **Contributed Actively to Agile SDLC**, participating in daily standups and sprint planning sessions, aligning tasks with project goals, priorities, and deadlines for successful sprint delivery.

Projects

Recipe Sharing Platform

October 2021 – December 2021

Technologies: Python, Django, Django Rest Framework, MySQL, HTML5, CSS3, Bootstrap

- Built and deployed a **Recipe Sharing Platform**, enabling users to share, search, and save recipes.
- Optimized backend performance using **Django Rest Framework** and **MySQL**, improving response times by 40% and gaining 100+ active users.
- Integrated **user authentication** and **authorization** with **Django** to ensure secure access to some features.

Certifications

- **SQL Certification – HackerRank** Issued – **January 2025**
- **Python Certification – HackerRank, LeetCode** Issued – **February 2024**

Education

- Pursued **MCA** with **81%** from **Osmania University**, Hyderabad **June 2019 – June 2022**
- Pursued **BCA** with **69%** from **Osmania University**, Hyderabad **June 2015 – June 2019**
