- Machine Learning
- Python
- SQL Database Management

INTERNSHIP

Machine Learning and Cloud Computing Instructor, Bhubaneshwar - IN

Trixtern Technology Jan 2024 - Jul 2024

Trixtern Technology is a cutting-edge software development company specializing in custom solutions for businesses looking to innovate and stay ahead.

- Created and refined a comprehensive curriculum for cloud computing and machine learning courses, ensuring up-to-date content aligned with industry trends.
- Conducted engaging training sessions for students and professionals, utilizing diverse instructional methods to accommodate different learning styles.
- Provided training and technical support to other team members on utilizing machine learning, Python, and cloud computing tools to enhance their work

Machine Learning Trainee, Bangalore Urban - IN

Verzeo Edutech Jun 2022 - Sep 2022

Verzeo Edutech is a leading online learning platform offering courses and internships in technology, business, and design to help students succeed.

- Developed and implemented machine learning models to improve student engagement and performance.
- Utilized Python for data preprocessing, feature engineering, model development, and model evaluation.
- Performed data analysis to identify patterns and trends in student behavior and performance.
- Collaborated with the data science team to optimize existing machine learning algorithms and develop new models.

PROJECT DETAILS

Team Lead

FAULT DETECTION OF ROTATING MACHINERY Dec 2023 - Apr 2024

- Implemented bearing fault detection using phase space reconstruction.
- Fine-tuned VGG19 to enhance fault detection accuracy and efficiency.
- Achieved significant technical efficiency in identifying anomalies in bearing operations.

Technical Lead

BRAIN TUMOUR DETECTION USING LONGITUDINAL MRI Jun 2023 - Sep 2023

- Developed a brain tumor detection system using longitudinal MRI.
- Applied various image processing techniques for precise image matching.
- Utilized deep learning to enhance detection accuracy.

Technical Lead

SECURE INTERNET OF VEHICLE MANAGEMENT FRAMEWORK Dec 2022 - Mar 2023

- Developed a secure Internet of Vehicles management framework.
- Utilized IoT sensors for comprehensive data collection.
- Employed blockchain techniques to ensure secure data handling.
- Created a unified interface for seamless user interaction.

Machine Learning Trainee

SPAM - HAM CLASSIFICATION Jun 2022 - Sep 2022

- Developed a spam and ham classification system.
- Evaluated multiple models to obtain precise results.
- Integrated the final model with a web app using Python.

ACHIEVEMENTS

Published Research Paper at IIT Mandi Jun 2024

Bearing Fault Detection Using Phase Space Reconstruction and Fine-Tuned VGG-19," IEEE, IIT Mandi. This research combines phase space reconstruction techniques with a fine-tuned VGG-19 model to improve the accuracy of bearing fault detection in industrial machinery, enhancing reliability and efficiency in predictive maintenance practices.

HackerRank Gold Badge Sep 2022

Achieved a 5-star gold badge in both Python and SQL, demonstrating advanced proficiency and problem-solving skills in these programming languages.

IoT TechFest Winner Mar 2024

Awarded as the winner of the IoT competition, showcasing innovative solutions and technical excellence in the field of Internet of Things.
