 ranjansoumya413@gmail.com  BBSR, Odisha

PROFESSIONAL SUMMARY:

Dynamic Full Stack Developer with 2+ years of experience in the MERN stack, excelling in both backend (Node.js, Express.js) and frontend (React.js). Adept at creating robust APIs and efficient databases (MongoDB). Proven ability to learn new tech swiftly and leverage Generative AI.

EDUCATION:

Full-Stack Web Development

Masai School

April 2022 - April 2023

Bengaluru, India

BSc (Physics)

Utkal University

April 2016 - July 2019

Bhubaneswar, Odisha

TECHNICAL SKILLS:

Express.js | Node.js | React | JavaScript | Responsive Web Design | CSS3 | HTML5 | MongoDB | React Native | NextJS | MaterialUI | Chakra UI | Mongoose | Bootstrap | Redis | Redux | Git | RESTful APIs

SOFT SKILLS:

Attention to Detail | Teamwork | Problem Solving | Effective Communication | Adaptability | Time Management

WORK EXPERIENCE:

Monosage

Full-Stack Developer

September 2023-present

- Led a team for MERN stack projects, ensuring seamless collaboration and project success.
- Developed and maintained comprehensive web applications, enhancing site usability and performance.

Monosage

Full-Stack Developer

September 2023-present

- Created a new project from scratch, mastering React, Redux, HTML5, CSS3, Node.js, Express, and MongoDB.

- Quickly adopted and integrated new technologies to deliver robust and scalable web solutions.

Masai School

Full-Stack Developer (Internship)

June 2022 - June 2023

- Created a project from scratch utilizing React, Redux, HTML5, and CSS3 for the frontend, ensuring a seamless and responsive user experience.
- Developed and integrated efficient server-side APIs using Node.js and Express.js, enhancing backend functionality and performance.
- Designed and optimized database models and queries with MongoDB to ensure efficient data handling and storage.
- Collaborated with team members to solve complex problems, improve development workflows, and maintain high code quality standards.

PROJECTS:

KnockIT

- Designed and developed an intuitive user-interface using React and Redux to facilitate a seamless food ordering experience.
- Implemented a secure payment gateway using RazorPay and SSL encryption to ensure safe transactions.
- Integrated robust search functionality with filters to allow users to easily find restaurants and dishes.
- Developed a dynamic shopping cart and user account management system for a personalized user experience.
- Ensured the full responsiveness of the web application across various devices including desktops, tablets, and mobile phones.

Tech Stack:

JavaScript | React | Redux | Node.js | Git | HTML5 | CSS3 | Responsive Web Design

GuddusDryFrutes

- Developed a user-friendly e-commerce platform using React to improve the online purchase experience for dry fruits.
- Implemented a comprehensive search and filtering system to ensure quick and easy navigation for users.
- Integrated secure payment options with SSL encryption to safeguard customer transactions.
- Developed responsive design principles for compatibility with various devices.
- Ensured the integration of a shopping cart system with order history and preferences for personalized user interaction.

Tech Stack:

JavaScript | React | Git | HTML5 | Responsive Web Design | CSS3
