PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience in designing, developing, and deploying scalable web applications and microservices. Strong expertise in **Node.js, Express.js, Nest.js, PostgreSQL, MongoDB, React.js, GraphQL, and Git**. Proven experience in cloud-based systems, CI/CD pipelines, API gateways, and enterprise-scale applications with a focus on performance, security, and reliability.

EXPERIENCE

SDE-2, Verizon

December 2023 - Present

Technologies: Node.js, Express.js, Redis, PostgreSQL, Apigee, Swagger

Hyderabad, India

- Designed and deployed **LivePerson/Verint Chat Recording microservice**, supporting **900+ live agents** with high availability and fault tolerance.
- Developed and managed **Apigee API proxy configurations**, implementing security policies and rate limiting to ensure secure API communication.
- Authored **Swagger/OpenAPI documentation** and resolved **100% security vulnerabilities** identified by the **42Crunch audit**.
- Implemented **unit and integration testing** using Chai and Sinon, achieving high code coverage and **zero production issues**.
- Built a **scalable RCS & SMS Campaign Framework**, successfully delivering **488,000+ customer campaigns** to reduce churn and improve engagement.

SDE-1, Verizon

April 2022 - December 2023

Technologies: Node.js, Express.js, Redis, PostgreSQL

Hyderabad, India

- Developed **RESTful APIs** to manage seamless handoff between automated chatbots and live customer support agents.
- Led **legacy Live Chat application modernization**, aligning with **NSA security standards** for both authenticated and unauthenticated users.
- Implemented optimized **authentication and authorization logic**, enabling the platform to handle **millions of concurrent users**.
- Conducted **end-to-end testing, debugging, and log analysis** to proactively identify and resolve backend performance and security issues.

PROJECTS

Full-Stack BookStore Application | React.js, Node.js, Express.js, MongoDB

- Developed a **MERN stack** bookstore application with **secure user authentication, role-based access control**, and protected APIs.
- Built a **responsive UI using React**, including **Dark Mode** and optimized user experience.
- Designed and implemented **RESTful APIs** using Node.js and Express.js with MongoDB for efficient data management.

TECHNICAL SKILLS

FrontEnd: HTML, CSS, JavaScript, React.js, Bootstrap

Backend: Node.js, Express.js, Nest.js, Redis, GraphQL, Python

Databases: PostgreSQL, MongoDB, Redis Cache

Version Control: Git, GitHub, GitLab

Cloud/DevOps : AWS, Docker, CI/CD, Jenkins

EDUCATION

Indira Gandhi Institute of Technology (IGIT)

2018 - 2021

Master of Computer Applications

CGPA : 8.47

ACHIEVEMENTS

- Received **Spotlight Award** and **Simple Thanks Award** at Verizon for accountability and excellence (4 times).
- Completed **React.js, Node.js, and Generative AI Certification** (Udemy).
