EDUCATION

National Institute of Technology (NIT), Jamshedpur
Electronics and Communication Engineering (B.Tech) CGPA : 8.09

Aug 2019 – May 2023
Jamshedpur, India

EXPERIENCE

BYJU'S

Member of Technical Staff (MTS) - 1

Jan 2023 – Present
Bengaluru, India

- Designed and **built the frontend for an in-house CRM tool**, OneLead, which will replace Leadsquared, an existing third-party application in use, and enhance lead and sales management efficiently. This will make savings of around Rs. 50 crores per annum.
- I utilized **React, Redux-Saga, and Redux-Toolkit** to build OneLead. Additionally, Wrote a suite of over 15 unit tests using **Jest and React Testing Library**, and performed automation testing using **Java** and **Selenium** which reduced the testing time by 80%.
- Streamlined and took **ownership of key components and pages**, ensuring seamless development and functionality alignment with project goals; leveraged **Memoization, Debouncing, and Throttling techniques** to optimize application performance, resulting in a **50% reduction in API calls**
- Developed and **implemented an in-house workflow management system**, OneDesk, replacing Zendesk, and streamlining company operations in conjunction with my team.
- Held **ownership of various critical microservices**. Utilised **Spring Boot, Redis, Kafka, SQL**, and **MongoDB** to develop and maintain, while also leading **high-level design (HLD)** efforts to ensure scalability and efficiency.
- Integrated Clevertap into the Ruby on Rails-based K3 Application** for personalized notifications, enhancing user engagement through tailored messages based on their activities and progress.
- Integrated **Coralogix for standard and critical alerts** in the K3 application, seamlessly notifying the designated Slack channel. This feature has helped ensure **quick issue identification and resolution**, improving the overall time to fix a bug by **30-40%**.
- Actively tackled bugs, strategically made code changes, and optimized functionality within the K3 application. Achieved a remarkable **20% reduction in API call response times**, elevating overall performance of the Application.

PROJECTS

NOTE ZIPPER | 🐙

- Developed a feature-rich **full-stack MERN** application for note-taking, and a total of **100 students used this application** to take notes.
- Enabled secure user **account creation, authentication, and note storage**, while ensuring that passwords are stored in the database in an **encrypted** format.
- Implemented **CRUD(Create, Read, Update and Delete)** operations for seamless note management.
- Crafted an intuitive interface for an enhanced user experience. Users can **personalize their accounts by uploading images**, create categories for organizing various notes, and **preview content** before saving.
- Added an advanced user **authentication system to enhance security**, ensuring that users can only access and view their own notes while maintaining privacy from others.

Order Management System - Spring Boot Microservice Project | 🐙

- Developed an order management system, using **Microservice architecture** to improve scalability and performance.
- Implemented **API gateway** to route requests to the appropriate microservice and handle authentication and authorization using **Keycloak**. Utilized **Netflix Eureka for service discovery** and **load balancing**.
- Used Spring Boot features such as **Spring security, cloud, validation**, and REST API creation.

SKILLS

Languages: C++, C, JavaScript, Java, SQL, Python

Technologies: React.js, Spring Core, Spring Boot, Node.js, Express.js, Next.js, Redux Toolkit, Redux Saga, Jest, Selenium, Ruby on Rails, HTML, CSS, SCSS

Databases: MongoDB, MySQL, PostgreSQL, Redis

Developer Tools: Git, GitHub, Docker, Kafka, Prometheus, Grafana, Coralogix, Postman, VS Code, IntelliJ IDEA, Eclipse

CS Subjects: OOPs Concepts, Operating System, DBMS, Computer Networks, Data Structure and Algorithm.

ACHIEVEMENTS

- Solved total of **1000+** problems on various platforms like **LeetCode, CodeForces, Hackerearth, GeeksForGeeks**
- Max rating of **1400+ (Specialist)** at CodeForces(Top 15 coders in college).
- Led the **technical team (Innoreva)** at college and contributed to organizing various events, such as **Cultfest and OJASS**, by actively participating in their respective **web teams**.
