Frontend: React.js, JavaScript, Next.js

Backend: Node.js, Express.js

Database: Mongo DB, SQL

UI/UX & Styling: Bootstrap, Material-UI

Tools & Technologies: REST APIs, GitHub

WORK EXPERIENCE

Cambridge Mobile Telematics, Chennai

Oct 2022 – Dec 2022

- Engineered Welcome and Registration pages for a MERN stack application, reducing user registration time by 30% through optimized authentication flows using Node.js, Express.js, and MongoDB.
- Created a language conversion web app, enabling real-time translations for 10+ languages by integrating React Context API, Redux, and MongoDB.
- Built scalable frontend applications using React.js, Redux, and MUI, improving user engagement and performance.
- Designed RESTful & GraphQL APIs using Node.js and Express.js, reducing API response times by 35%.

Yalamanchili Software Exports Pvt LTD, Software Developer– Chennai

June 2021 – Aug 2022

- Monitored transaction processing, payment gateway integrations, and customer service delivery for fintech applications.
- Developed and optimized RESTful & GraphQL APIs using Node.js and Express.js, reducing API response time by **35%** and improving system efficiency.
- Managed log monitoring and batch processing for **500+ daily transactions**, ensuring **99.9% uptime** and incident resolution within SLA timelines using ServiceNow (SNOW).
- Built scalable frontend applications using React.js, Redux, and MUI, improving load time by **40%** and enhancing user experience through the MVVM architecture with React Hooks.
- Collaborated across teams (UAT, backend, frontend) to reduce deployment issues by **30%**, ensuring smooth releases and seamless third-party API integrations.

Education

National Institute of Technology and Science, MCA

Aug 2018 – May 2020

Projects

- Developed a Netflix-inspired landing page using HTML, CSS, and Bootstrap Icons, increasing page engagement by **35%** through an intuitive UI.
- Implemented a responsive layout with a dark theme and overlay effect, improving mobile accessibility and reducing bounce rate by 25%.
- Created a custom header with a brand logo, language selector, and sign-in button, enhancing brand visibility and user navigation efficiency.
- Designed a registration section with an email input field and CTA button, leading to a **20%** boost in sign-ups.
