Summary

UI Developer with 2+ years of experience building responsive, scalable, and SEO-optimized web applications using HTML, CSS, JavaScript, React.js, and Next.js. Experienced in translating Figma designs into production-ready UI components and developing dashboard interfaces using Firebase and component-based architecture. Skilled in API integration, responsive UI development, and performance optimization. Experienced in using modern AI development tools such as ChatGPT, GitHub Copilot, Claude, Gemini, DeepSeek, and Antigravity to enhance productivity and problem solving. Familiar with deploying frontend applications using Vercel. Currently expanding backend development skills with Node.js and Express.js to build full-stack applications.

Skills

- **Frontend:** HTML, CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap
- **UI/UX:** Responsive Design, Dashboard UI Development, Figma to Code
- **Performance:** SEO Optimization, Core Web Vitals, Page Speed Optimization
- **Tools & Platforms:** Git, GitLab, Firebase, WordPress, REST APIs, Vercel
- **AI Development Tools:** ChatGPT, GitHub Copilot, Claude, Gemini, DeepSeek, Antigravity
- **Backend:** Node.js, Express.js

Experience

- UI/UX Developer | Qualysec Technologies Pvt. Ltd., Bhubaneswar** Aug 2025 – Feb 2026
- Developed and optimized the company **WordPress website**, improving UI structure, SEO visibility, and page performance.
 - Built a **role-based security dashboard UI** from Figma using **Next.js, Tailwind CSS, and Firebase** implementing IAM-based access control and deployed development builds using **Vercel**.
 - Designed **cybersecurity chatbot interface and vulnerability scanning dashboard UI** using React.js.
- UI Developer | CarryBell Pvt. Ltd.** Nov 2023 – Jul 2025
- Developed responsive **company and product websites** focused on performance, SEO, and user experience.
 - Converted **Figma designs into production-ready webpages** using HTML, CSS, JavaScript, and Bootstrap.
 - Improved page speed and SEO visibility through structured metadata, responsive UI architecture, and cross-browser optimization.

Projects

Role-Based Security Dashboard — Qualysec Technologies

- Built scalable dashboard UI using Next.js, Tailwind CSS, and Firebase with IAM-based user role access and deployed frontend builds on Vercel.

Cybersecurity Chatbot & Vulnerability Scanner UI — Qualysec

- Designed chatbot interface and vulnerability scanning dashboard for automated security reporting workflows using HTML, CSS, and JavaScript.

Company Website — CarryBell

- carrybell.com | floorlo.com
- Developed responsive and SEO-optimized UI using HTML, CSS, JavaScript, and Bootstrap.
