- Bootstrap

PERSONAL INFO

Building websites and web applications utilizing ReactJS and vanilla JavaScript tools/frameworks falls within the domain of a React front-end developer with three years of experience: two years in web designing and one year in ReactJS. I am proficient in creating high-quality code for e-commerce web admin panels. Additionally, I am familiar with JWT authentication and have a strong grasp of JavaScript.

EXPERIENCE

- React.js Developer** **2022-Present**
Tech Glacier
 - Built responsive websites utilizing semantic HTML, JavaScript, ReactJS, and CSS that were assembled using a variety of build tools for more than 40 clients.
 - created code that works with massive data sets by UI component rendering.
