Skills

- **Languages:** JavaScript, HTML5, Java, Python, PHP
- **Technologies/Framework:** ReactJS, NodeJS, React-Router-Dom, Material UI, Bootstrap, Axios, Rest API, Express.js, CSS
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS-Code, Postman
- **OS:** Linux, Windows

Projects

QKart

Jun 2023

- Built a single web page app using React and utilized REST APIs for dynamic data-loading and rendering
- Implemented the core logic for authentication, shopping cart, and checkout
- Improved UI by adding responsive design elements for a uniform experience across different devices using Material UI
- Optimized the search feature using Debouncing
- Facilitated CRUD operations on the client side to select, add, and delete addresses for delivery
- Built the complete set of REST APIs for an E-commerce application following the best practices
- Used MongoDB NoSQL database for data storage
- Wrote unit and integration tests to test the implementation
- Used React Router library to set up routes redirecting customers to appropriate pages and deployed the app using Netlify

XBoard

Apr 2023

- XBoard is a News Feed website that will feature the latest news for select topics, from Flipboard
- Built it using HTML, CSS, Bootstrap and JavaScript from scratch and used Accordion and Image Carousel to improve UI
- Fetched news content from Flipboard's RSS feed using REST API

Admin UI

- It is an admin UI dashboard that displays 10 user details per page and the user is able to edit or delete the details of the user
- Users can search for particular users by their email, name or role and edit it.

Experience

Aggregate Intelligence Inc.

2024 - Present

UI Developer

- Enhanced user engagement by developing responsive and dynamic user interfaces with React.js, seamlessly integrating application logic for optimal user experience.
- Enhanced application performance by managing API requests with jQuery and AJAX for seamless data flow and interaction with backend services.
- Drove e-commerce platform development by designing user-friendly interfaces and implementing features that significantly enhanced customer experience and boosted sales.
- Developed full-stack applications by collaborating on both front-end and back-end projects, using technologies such as MySQL, C#, .NET Core, and REST APIs to enhance system scalability and reliability.

Crio.do

2023 - 2024

MERN Stack Developer

- Enhanced user data security and experience by developing a web application with React Router Dom and NodeJS, resulting in a 30% increase in user engagement.
- Crafted detailed documentation of the application's technical architecture, enhancing team understanding and streamlining maintenance and updates.
- Developed and implemented a RESTful API that facilitated seamless integration between systems, enhancing data accuracy and reducing process time by 30%.
- Implemented a secure, cutting-edge authentication system that eliminated unauthorized access incidents, significantly enhancing application security.

iMerit Technology Services pvt ltd

2020 - 2022

Software Developer

- Enhanced web applications using the MERN stack (MongoDB, Express.js, React, Node.js), leading to a 20% increase in performance and user engagement.
- Implemented RESTful APIs and integrated third-party services, significantly boosting application efficiency by 30% and increasing user satisfaction ratings by 20%.
- Collaborated with cross-functional teams to design and optimize scalable applications, leading to a 30% increase in system efficiency and 50% reduction in downtime.
- Implemented version control with Git and streamlined deployment processes using CI/CD pipelines, enhancing update efficiency and significantly reducing errors.

- Supervised code reviews and mentored junior developers, which improved code quality by 15% and enhanced team collaboration through bi-weekly training sessions.

Education

Raajdhani Engineering College, Bhubaneswar, Odisha

2014 - 2018

B.Tech, Mechanical Engineering

- **GPA:** 80%
