Career Overview

Testing professional with 3 years of experience as Software Test Engineer. Good team player with organized nature and strong attention to detail.

1. Strong structured testing knowledge and thorough understanding of manual testing methodologies and concepts. Experienced working in Agile Environment.
2. Hands on experience mainly with Functional, Integration, System, Regression and Smoke Testing across web applications. Extensive experience and knowledge in writing Test Cases using Test Case Design Techniques.
3. Excellent understanding of Software Development Life Cycle and Software Test Life Cycle analysing business requirements. Thorough knowledge on Defect Life Cycle and hands on experience in logging defects using Defect Tracking Tool (JIRA).
4. Performed Traceability Matrices to ensure test coverage and reviewed test cases of peers.
5. Good Experience in Mobile Testing (Android and iOS). Knowledge of writing basic SQL queries.
6. Part of weekly project status meeting and Retrospective meeting with team members.

Employment History

System Analyst, Foiwe Info Global Solution, Bangalore

JUNE 2015 — SEPTEMBER 2021

1. **Analyzing User Requirements:** Examined and understood the needs and goals of users within the organization to ensure that the proposed system solutions aligned with business objectives.
2. **Collaborating with Stakeholders:** Worked closely with various stakeholders, including business users, managers, and IT teams, to gather detailed requirements and document system specifications accurately.
3. **Conducting Feasibility Studies:** Conducted assessments and analyses to determine the feasibility of proposed system solutions, considering factors such as budget, resources, and potential benefits to the organization.
4. **Designing System Workflows:** Developed detailed workflows and processes for the system, outlining how data and information would flow through different stages to achieve optimal operational efficiency and meet business needs.
5. **Facilitating User Acceptance Testing (UAT):** Coordinated and supported user acceptance testing sessions where end users tested the system to identify any issues or areas for improvement, gathering feedback to refine the system.
6. **Providing Training and Support:** Delivered training sessions and provided ongoing support to end users during the implementation phase and post-launch of the system, ensuring smooth adoption and effective use of the new system within the organization.

Software Test Engineer, eMudhra Ltd, Bengaluru

DECEMBER 2021 — SEPTEMBER 2023

- A. **Requirement Understanding:** Analyzed and comprehensively understood project requirements outlined in the Customer Requirement Specification (CRS) document.
- B. **Scenario Development:** Identified and crafted various test scenarios, including Functional, Integration, System, and Smoke scenarios. Actively participated in brainstorming sessions to refine and update test scenarios based on project needs.
- C. **Test Case Development and Execution:** Created detailed test cases for Smoke, Component, Integration, and System Testing phases. Executed test cases to ensure the quality and functionality of web applications.
- D. **Traceability and Defect Management:** Developed Traceability Matrix to establish linkage between test cases and project requirements. Managed defect logging and tracking using JIRA, providing support to developers for defect analysis and resolution.
- E. **Project Meetings Participation:** Regularly attended daily stand-up meetings to provide project status updates and discuss ongoing tasks. Contributed to Retrospective and bug triage meetings, collaborating with the team to enhance project efficiency and resolve issues.
- F. **Knowledge Transfer (KT):** Conducted Knowledge Transfer sessions for junior team members, facilitating understanding of project scope, processes, and best practices.

COMPETENCIES:

- a. Individual contributor with strong analytical and problem-solving skills
- b. Committed to deadlines and schedules.
- c. Positive attitude with willing to learn.
- d. Good communication and interpersonal skills.
