CAREER VISION

- Seeking a position to utilize my skills and abilities in the information technology industry that offers professional growth while being resourceful, innovative, and flexible.
- I aspire to work hard in a company where I can add value according to the best of my technical and interpersonal skills and learn from the people around me.

EXPERIENCE

- Mohs10 Technologies: - Sept 2022 – Dec 2023(1 Year 4 months)
->QA Engineering Specialist

PROFESSIONAL SYNOPSIS

- Executed hands-on testing focusing on both manual and automation testing, utilizing tools like Selenium for effective test automation.
- Good knowledge of all the phases of SDLC and STLC.
- Adroit to performing Functional testing like Functionality, Integration, System, Acceptance, Smoke, Sanity, Adhoc, Exploratory, Regression & Compatibility Testing.
- Adequate knowledge on Non-Functional Testing like Performance and Usability, using tools such as JMeter and LoadRunner.
- Well-known in various Test case design techniques like Error Guessing, Equivalence Partition, and Boundary Value Analysis (BVA).
- Good knowledge of Writing, Reviewing, and executing Test cases.
- Good knowledge on the Defect Life Cycle.
- Knowledge on API testing using tools such as Postman.
- Knowledge of Internet technologies like React JS, Bootstrap, and Tailwind CSS.

EDUCATIONAL QUALIFICATION

- Software testing course from Qspider institution, Bhubaneswar in July 2022.
- BSc in zoology from Berhampur University, Gurukrupa Residential College, Umerkot in 2021 with a grade of CGPA 8.40.
- 12th from Gurukrupa Residential College, Umerkote in 2018 with a percentage of 66.66% from the CHSE Board.
- 10th from Garej GP High School, Jagatsinghpur in 2016 with a percentage of 64.5% from the BSE Board.

TECHNICAL SKILLS

- AUTOMATION TESTING: Automation testing tools and frameworks I have worked with, such as Selenium, Appium, and TestNG, regarding functional test automation.
- MANUAL TESTING: SDLC, STLC, Functional testing (Integration, System, Acceptance, Regression), Non-Functional testing (Performance, Usability), Test case design techniques
- PERFORMANCE TESTING: Performed load testing on different websites as well as applications using LoadRunner and JMeter.
- MOBILE TESTING: Knowledge of mobile app test automation frameworks such as Appium.
- API TESTING: Knowledge of API testing with expertise in utilizing the Postman tool for comprehensive testing.
- FRONTEND DEVELOPMENT: Familiarity with frontend technologies, such as React.js, Bootstrap, HTML, and Tailwind CSS.

PROJECTS

- Test Automation Forum (TAF):
 - Developed and executed automated test cases for the Test Automation Forum website using Selenium.
 - Integrated automated tests into the Jenkins build pipeline for continuous integration.
 - Technology & Tools Used: -
 - a) Selenium: For automation.
 - b) Version Control (e.g., Git): Utilized for code management.
 - c) Jenkins: For continuous integration.
- Leave Management System (LMS):
 - Developed and executed detailed test plans and test cases for leave application, approval workflows, and leave balance calculations.
 - Provided training and support to end-users for a smooth transition.
 - Technology & Tools Used: -
 - a) Trello: For tracking and managing issues and tasks.
 - b) Excel: For executing and documenting manual test cases.
 - c) Microsoft Word: For documenting test plans, test cases, and test results.
- Pharmacy Management System:
 - Played a key role in the front-end and UI design for the Pharmacy Management Application.
 - Collaborated with the development team to implement and enhance user interface elements.
 - Technology & Tools: - VS Code, Bootstrap, HTML/CSS.
- Organikness:
 - Involved in manual, API, and Mobile testing for an Agro-tech web and Android application. Actively contributing to the creation and refinement of test scenarios, as well as the design and analysis of test cases.
 - Executed mobile testing for the Android application using Appium.
 - Technology & Tools Used: -
 - a) Postman: For API Testing.
 - b) Appium for Mobile automation Testing.
 - c) Excel for test case execution and documentation.

PERSONAL STRENGTH

- Ability to cope with different situations.
- Adaptable.
- Quick learner of new things and hardworking and enthusiastic.
- Collaborated with team members to achieve project goals and deadlines.
- Self-motivated.
- Willingness to learn from others.
