

SWALPITA RAY NAYAK

+91-8117900988 ✉ raynayakswalpita@gmail.com  LinkedIn  Github  Bengaluru, India

Summary

Full Stack Developer with 2 years of experience building scalable web applications using **Python, Flask, Node.js, React.js, SQL, and Docker**-based deployment environments. Skilled in developing **secure RESTful APIs, responsive user interfaces, containerized applications, and optimized database systems**, with strong expertise in **backend architecture, authentication mechanisms, performance optimization, and end-to-end software development lifecycle**.

Experience

Senior Software Developer

September 2025 – February 2026

Innotab Technologies PVT. LTD.

- Developed a scalable **Employee and Project Management System** using **Python, Flask, React.js, and MySQL** following modular backend architecture.
- Implemented **JWT-based authentication** and **role-based access control** to ensure secure data operations across application modules.
- Optimized **SQL queries, indexing strategies, and backend logic**, reducing API response time by **50%**.
- Built workflow automation features including **timesheet approval, task tracking, and resource utilization monitoring**.
- Collaborated in **Agile development processes** using **Git and GitHub** for version control and continuous development.

Software Developer

January 2024 – August 2025

Innotab Technologies PVT. LTD.

- Contributed to development of a **CRM and Asset Lifecycle Management platform** using **React.js, Node.js, and MongoDB**.
- Designed reusable frontend components and implemented scalable backend **REST APIs** for workflow automation.
- Assisted in **Docker-based application configuration and deployment environments**.
- Performed **database optimization**, including schema design and CRUD query performance tuning.

Projects

TrackFloy | *React.js, Python, Flask, MySQL, REST APIs, Postman*

September 2025 – January 2026

- Built a scalable **employee and project management platform** with centralized tracking of **projects and team workflows**.
- Implemented **timesheet approval automation**, improving operational efficiency by **40%**.
- Designed **normalized MySQL database schemas** and optimized **backend API performance**, reducing response time by **50%**.
- Containerized the application using **Docker** for reliable deployment and environment consistency.

DAP AirBubble | *React.js, Node.js, Express.js, MongoDB*

August 2024 – February 2025

- Developed a **CRM and asset lifecycle management platform** integrating **onboarding, maintenance, and support workflow modules**.
- Implemented structured **lead management and subscription tracking workflows**, improving conversion efficiency by **25%**.
- Built **asset tracking and ticket analytics dashboards**, reducing issue resolution time by **30%**.

Personal Finance Dashboard | *React.js, Flask, Pandas, Matplotlib, MongoDB*

October 2025 – January 2026

- Developed a **personal finance management application** to track **income, expenses, savings, and financial goals**.
- Designed **secure RESTful APIs** and interactive **data analytics dashboards**.
- Implemented **monthly financial trend analysis and visualization** for improved spending insight.

Skills

Frontend Development: HTML5, CSS3, JavaScript (ES6+), ReactJS, Bootstrap, Tailwind CSS
Backend Development: Node.js, Express.js, Python, Flask, RESTful API Development, Authentication & Authorization, JSON Web Token (JWT)
Data & Visualization: NumPy, Pandas, Matplotlib, Seaborn
Databases: MySQL, PostgreSQL, MongoDB, Advanced SQL (Joins, Subqueries, Indexing, Optimization)
DevOps & Deployment: Vercel, Docker, Containerization, Git, GitHub
Tools: Jupyter Notebook, VS Code, Postman, Google Colab

Certifications

- **30-Day Python Using AI – AI for Techies (2025):** Learned to use AI tools, perform data processing, and create visualizations to derive actionable insights.
- **SQL Course – Skill Course (2026):** Gained expertise in querying, joining, and managing databases through hands-on SQL problem-solving.
- **AI Tools Workshop – be10x (2026):** Gained hands-on experience with 10+ AI tools for presentation design, analytics, web development assistance, speech-to-text automation, and productivity optimization.

Strengths

- Quick learner with strong adaptability to new tools, frameworks, and development environments.
- Excellent communication, problem-solving, and teamwork skills in collaborative software projects.
- Enthusiastic about exploring and integrating emerging technologies like **ChatGPT-4, Claude, Wispr Flow, Grok, Perplexity, and Gemini** to enhance innovation and productivity.

Education

Master of Computer Applications(MCA) <i>Gandhi Institute for Education and Technology, Khordha</i>	Mastered: 2024 <i>CGPA: 8.9 / 10</i>
