About Me

With 2+ years of hands-on experience, Dedicated IT professional with a passion for problem solving and a proven track record in developing innovative solutions. I am seeking a challenging and rewarding career in IT where I can leverage my expertise in FastAPI, MySQL, MongoDB, and Python to drive growth and development within the organization—committed to delivering high-quality solutions that align with customer requirements while continuously enhancing my skills and knowledge.

Skills

- | | | | |
|-----------|-----------|--------------|----------|
| • Python | • FastAPI | • MongoDB | • GitLab |
| • Django | • MySQL | • PostgreSQL | • GitHub |
| • Postman | • Numpy | • Pandas | |

Education

- | | |
|----------------------|-------------------|
| B.Sc (Mathematics) | 2012 - 2015 |
| • Utkal University | Percentage - 75 % |

Certifications

- Completed "Python Essential", "Django Framework" & "MySQL" courses on LinkedIn Learning.
- Recognition and appreciation for the Python Full stack projects during my period at Prwatech.

Experience

- | | |
|---|----------------------|
| Engineer at SmartX Technologies : | March 2023 - Present |
| <ul style="list-style-type: none">Designed and implemented scalable APIs using Django and FastAPI, ensuring optimal performance and responsiveness.Optimized databases, including MongoDB, MySQL, and PostgreSQL, to enhance efficiency and data management.Utilized GitLab and GitHub for version control, facilitating collaborative development and seamless project management.Collaborated effectively with team members to ensure project success, maintaining open communication and resolving issues efficiently.Conducted comprehensive API testing using tools like Postman, ensuring the reliability and functionality of developed solutions.Demonstrated strong problem-solving skills, consistently delivering high-quality code solutions to meet project requirements and deadlines. | |

Project Details:-

- Project: ICICI, Aptpath, Reel Room.
- Role : Backend Developer
- Technical Skills:
Programming Languages: **Python**
Frameworks: **Django**
Databases: **PostgreSQL**
- Description: The primary objective of the Aptpath Learning Platform Backend Test is to evaluate and demonstrate proficiency in backend development skills. It is a crucial tool for learners, educators, and potential employers, providing valuable insights into an individual's ability to architect robust and efficient backend systems.

Post-Accountant at Eureka Forbes :

June 2021 - March 2023

- Role: Backend Developer & Post-Accountant
- Technical Skills:
Programming Languages: **Python**
Managing payroll, Budgeting, and Forecasting

Description:

- Collaborated with team members to streamline accounting processes and improve efficiency.
- Assisted in the annual budgeting process, providing detailed analysis and forecasts.
- Prepared and filed tax documents to regulatory requirements.
- We have implemented a new accounting software system, resulting in a 20% increase in productivity.
- Provided support during internal and external audits, ensuring all documentation was accurate and complete.
- We optimized database queries to improve application performance and reduce response times.
- We have implemented security best practices to safeguard sensitive data and prevent breaches.
- Developed RESTful APIs for internal applications using Python and Flask.
- Optimized database queries to improve application performance and reduce response times

Date of Birth : - 10th June 1996

Marital status : - Female
