OBJECTIVE

Senior Software Developer / Team Lead with 6+ years of experience in full stack web and mobile application development. Strongly experienced in writing, testing and reviewing codes to build effective software applications with various technology stacks. Possess an unbridled passion for software application development with comprehensive knowledge of web and mobile applications.

Objective is to work in an environment that has technology, innovation, challenge and offers me a path to obtain a formidable position in the field of Computer Science. Career growth objectives are long term oriented and depend on opportunities to learn advanced new concepts and skills.

SKILLS

- Languages: HTML5, CSS3, PHP, JavaScript
- DBMS: MySQL, OracleDB, MongoDB, MariaDB
- Frameworks: Cake PHP, Laravel, CodeIgniter, Node.js, Express.js, React.js, Typescript.js, Angular.js, jQuery, Twitter Bootstrap, WordPress(CMS), Drupal, Magento, BigCommerce, Flight PHP, Shopify, Joomla, Zend, Symfony 7, Yii
- Others: AWS, RESTful APIs, UI/UX Design, Drupal Twig, Payment Gateways, SQLYog, DynamoDB, GraphQL, Nginx, Git, JIRA, Google Cloud Services, Sprykar, Cloud Build and Jenkins, RabbitMQ, PHPUnit, Grafana

ACADEMICS

- Bachelors: B.Tech in Computer Science and Engineering (2012 – 2016)
Institute of Technical Education and Research (Siksha O Anusandhan University), Bhubaneswar, Odisha, India
- Intermediate: Class 12th Board Examination (ISC 2012)
Sri Aurobindo's Rourkela School, Rourkela, Odisha, India
- Matriculation: Class 10th Board Examination (CBSE 2010)
Deepika English Medium School, Rourkela, Odisha, India

EXPERIENCE (6+ years)

Senior Software Developer

Webenza India Private Limited – Feb 2022 to Current

- Proficiently developed a range of interactive and dynamic web applications like Experion, GIMI from the ground up using Core PHP, Node.js, React.js, Typescript.js, Javascript, Laravel, Laravel Mix and Codeigniter.
- Developed a comprehensive e-commerce platform from scratch on projects like chaipoint using the Node.js, Typescript.js, React.js (Front-end) and implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Proficiently worked in twig engine for drupal projects like Nova IVF, Asterlabs, Manipal University (MIU, MUCM)
- Developed various interactive and dynamic web applications like Experion and Kirusa using custom Drupal, Javascript and Wordpress modules.
- Newly Developed and implemented custom coding for new pages in Spryker CMS for Kirusa.
- Experienced in deployment and working with AWS modules like EC2, S3, DynamoDB
- Optimized application performance by fine-tuning database queries and front-end rendering processes.
- Developed and implemented custom modules and api in a project called Kauvery Hospital with Symfony 7, Laravel, Laravel Mix.
- Written 50+ unit test cases using PHPUnit to test the codes for the Kauvery Hospital project.
- Proficiently developed modules for the products of chaipoint project in Magento 2 to allow users to select tea with multiple flavors.
- Used Jenkins and Kubernetes for projects like Asterlabs for deployment.
- Migrated a Magento website called chaipoint to Shopify using a third party app called Amasty and did custom coding to implement variants to products.
- Did deployment of scalable and resilient software solutions on Google Cloud Platform (GCP), utilizing its features and services to meet project objectives.
- Collaborated with cross-functional teams to gather requirements, architect solutions, and drive implementation, ensuring alignment with best practices and architectural standards.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines using tools like Cloud Build and Jenkins to automate software delivery and streamline deployment processes.

PHP Programmer

Inflexi Technologies Private Limited – Feb 2019 to Jan 2022

- Worked efficiently with my project manager for document data extractor using PHP, Python, Node.js, React.js, Typescript.js, Handlebar.js, AWS EC2 and DynamoDB – Doceagle
- Implemented OOPS concepts and its applications like inheritance, abstraction, typecasting concepts in core PHP along with some modules developed in Symfony applications.
- Customized and Developed various ecommerce websites using frameworks like Bigcommerce & Shopify like Safari Firearms, BeddingCo & Dog Essentials.
- Implemented storefront API and coded several APIs using Javascript and GraphQL in bigcommerce to fulfill the requirements for the BeddingCo project.
- Integrated Klaviyo to a bigcommerce website called Safari Firearms for boosting selling of the products.
- Migrated a Magento website called BeddingCo to Shopify using a third party app called Amasty and did custom coding to implement variants to products.

- Implemented Product Details extraction through using custom coding in Magento 2 for the project “BeddingCo” updating all the variants for multiple products in a single page.
- Implemented Node js packages to set up a Bigcommerce virtual domain to integrate custom themes.
- Worked on Node JS environment to implement theme for Bigcommerce.
- Implemented stencil API to extract product information to display as per client’s requirement at the website using Javascript for Safari Firearms.

PHP Developer

Luminous Infoways Private Limited – Aug 2017 to Feb 2019

- Developed various applications from scratch using Core PHP.
- Written and implemented SQL queries w.r.t CRUD implementation in a custom Document Management System.
- Worked and developed efficiently some educational websites like DTET, OVA, SCTEVT along with addition multilingual integration in the website.
- Developed a database module for E blood bank using CakePHP and MySQL.
- Written APIs extensively for E- Blood Bank application using CakePHP, PHP and MySQL and Javascript.
- Designed, Developed, Unit Tested, Deployed a dynamic Prisoner Management Information System for a Uganda project using CakePHP, Javascript and MySQL.
- Maintained many Wordpress projects w.r.t client’s requirements.
- Implemented API using cakephp and javascript.
- Created and implemented master database and dynamic forms along with Change Password functionality for several Wordpress projects.

HOBBIES

- Singing
- Film Making & Direction

PERSONAL DETAILS

- Date of Birth: 5th May 1994
- Gender: Male Marital Status: Single Nationality: Indian
- Address: Rourkela, Odisha, India
- Languages known: English, Hindi, Oriya, Bengali

STRENGTHS/TRAITS

- Confident to accept any challenge and deal pressures with proper planning, hard-work and utmost sincerity.
- Believe in Innovativeness, Coordination and thus implementation of all strategies and trends. Eagerness to learn new concepts, ideas, and techniques.

PLACE: Bengaluru, Karnataka, India
