EDUCATION

B.Tech ME

GL Bajaj Institute of Technology and Management

08/2017 - 08/2021

Greater Noida

Courses

- 70%

Intermediate and High School CBSE

2015 - 2017

Rudrapur

Courses

- 78% (12th)
- 9.8 GCPA (10th)

SKILLS

Php

Java

Python

JavaScript

NodeJs/Express.js

Django

Laravel

HTML/CSS

SQL

MongoDB

jQuery

Git

OOPs

AWS S3

ASW Lambda

AWS RDS and DDB

PERSONAL PROJECTS

Book Store (e-commerce) Web-App

- Created a book store app using **PHP**, **JS**, **HTML**, and **CSS** with a **SQL** database. Added separate login systems for admins and clients. Clients can browse books, read synopses, and add them to their cart. Demonstrates my skills in web development and database management.

JukeBox (Music Player) CLI-App

- Developed a Jukebox project using **Java8** such as streams, lambda expressions, and OOPs. Implemented playlist creation, and song segregation based on genre, date, and artist. Demonstrates proficiency in Java programming and functional command-line interface application development.

Influencer Management System

- Created Laravel-based Influencer Management System with dual user authentication, enabling admin profiles to showcase influencers on a public website. Integrated real-time chat using Pusher for user-admin communication.

ACHIEVEMENTS

BAJA SAEINDIA (2018 - 2020)

BAJA SAEINDIA participation among the top 30 teams in India.
