

SHUBHAM JAISWAL

OBJECTIVE

Seeking a challenging QA role where I can apply my skills in manual and automated testing, agile methodologies, and collaboration with cross-functional teams to drive continuous improvement and achieve project success.

EXPERIENCE

Tata consultancy services limited

23/07/2021 - Present

Quality assurance engineer

Raised, documented, and tracked defects throughout the software development lifecycle.

Conducted comprehensive regression tests to ensure the stability and integrity of software products.

Executed thorough release testing to validate software readiness for deployment.

Performed end-to-end testing to validate functionality and user experience of applications.

Actively participated in Agile Scrum meetings including standups, refinement sessions, and planning meetings.

Coordinated with developers and stakeholders to prioritize and resolve reported issues efficiently.

Utilized tools such as Postman, TeamCity, Octopus, Bitbucket, GitHub, Git Bash, Jira, and Cypress for both automation and manual testing.

Applied testing methodologies including end-to-end testing, functional testing, and regression testing.

Worked with Azure database and Azure App Insights to ensure quality and performance standards.

Collaborated effectively with cross-functional teams to deliver high-quality software solutions within Agile methodologies

PERSONAL DETAILS

Nationality : Indian

Gender : Male

Results-driven QA professional with 2.6 years of experience in the IT industry, specializing in ensuring the quality and reliability of software products. Skilled in manual and automated testing methodologies, I excel in conducting comprehensive testing processes, including end-to-end, functional, and regression testing. Proficient in utilizing industry-leading tools such as Jira, Postman, Cypress, and Git/GitHub to streamline testing processes and deliver high-quality software solutions. Adept at working within Agile methodologies, I am actively involved in Scrum meetings and collaborate closely with cross-functional teams to prioritize tasks and ensure timely delivery of projects. With a keen eye for detail and a passion for excellence, I am committed to exceeding quality standards and driving continuous improvement in all aspects of software testing.
