Frontend Developer — React.js — Micro-Frontend

Objective

I am a highly motivated and results-oriented Frontend Developer with 1+ years of experience building and maintaining high-performing web applications. I have a strong understanding of frontend technologies like HTML, CSS, React.js, Redux, and Next.js, and I am proficient in using tools like Webpack, Highcharts, Github, Git, and Vite. I am also experienced in implementing responsive web design principles and working with Restful APIs.

Skills

Frontend Technologies: HTML, CSS

Framework/Libraries: React.js, Redux, Next.js

Tools: Webpack, Highcharts, Github, Git, Vite

Others: Responsive Web Design, Restful APIs, Agile Methodology (JIRA)

Experience

Associate Frontend Developer

Jan 2023– Present

Unifynd Technologies Pvt. Ltd.

Mumbai

- Migrated **Vite configuration** to **Webpack** for seamless integration with an existing **MicroFrontend project**, reducing development time by **30% and ensuring efficient workflow**.
- Developed and deployed a high-performing Shopify Marketplace app using **React**, resulting in a **20% increase in user engagement** and driving revenue growth.
- Streamlined **API** communication by implementing a custom **HTTP** request provider with built-in Shopify AuthToken inclusion for **enhanced security** and **seamless authentication**.
- Designed and built interactive Dashboard modules like **Image Puzzle, Notification System, and In-App Messages** using **React MicroFrontend architecture**. These modules enhanced user engagement and streamlined communication, leading to a more dynamic and user-friendly Dashboard experience.
- Enhanced the Loyalty Program Dashboard by integrating **Analytics** using **Highcharts**, enabling comprehensive and user-friendly data visualisations. This empowered users with actionable insights and facilitated informed decision-making.
- Resolved critical production issues through swift **hot-fixes**, minimising impact on user experience and ensuring platform stability.

Frontend Intern

Oct 2022– Dec 2022

Unifynd Technologies Pvt. Ltd.

Remote

- Significantly increased user retention and satisfaction by designing and implementing captivating micro-games within the **JavaScript SDK**. Implemented **Coupons, Survey and Quizzes System** to incentivise user engagement and drive repeated platform usage.
- Crafted a **responsive** user interface for the SDK by implementing **DOM manipulation** techniques and seamlessly integrating **JavaScript event handlers**, ensuring a smooth and intuitive user experience.
- **Diagnosed and resolved SDK issues**, maintaining optimal functionality and a **seamless user experience**.
- Recommended and implemented the compressed **GZip** format for the **JavaScript bundle** file, **significantly reducing its size and enabling faster delivery**. **Decreased page load times by 50%** and enhanced overall website performance.
- Enhanced the build process by configuring Webpack to support **SCSS** and **SVG** and implementing plugins to leverage the crypto package for **robust encryption of secret keys**.

Teaching Assistant

Feb 2022– June 2022

Coding Ninjas

Remote

- Successfully addressed **1,000+ queries** from a diverse group of **350+ students**, maintaining an outstanding **4.84 average rating**, reflecting high satisfaction.
- Offered assistance in **HTML, CSS, Javascript, and React**, showcasing proficiency in **code debugging** and **problem-solving**, elevating students' understanding of these technologies.
- Evaluated and provided constructive feedback on student projects, contributing to their **skill development** and **project quality**.

Certificates

- Certificate of Experience for **Teaching Assistant Mentorship** for **Web Development** from **Coding Ninjas**.
- Certificate of Excellence for **Front-end Full Stack Development** from **Coding Ninjas**.
- Certificate of Excellence for **Advance Front-End Web Development with React** from **Coding Ninjas**.
