

Yash Aman Srivastava

Web Developer

Have interest for Web Development , it's a profound passion and a never-ending journey of exploration and creation. My fascination with web development goes beyond the surface of coding and design. The web is a dynamic ecosystem, and I thrive on the constant challenge of staying up-to-date with the latest advancements in programming languages, frameworks, and design principles. Software

WORK EXPERIENCE

Web Developer

Ex-Intern at Mobcoder

04/2023 - 09/2023

Lucknow, India

Mobcoder works as an enabler of technology disruption by developing intuitive & scalable apps. As a CMMI level 3 certified organization. They have a team of 100+ technical & creative minds deft in their respective domains who are dedicated to transforming the mobility world once and for all.

Achievements/Tasks

- I was working there as a Full-Stack Developer. Have a proven track record of creating robust and scalable Backend solutions using Node.js, Express.js, MongoDB, React.js and JavaScript
- I was building and maintaining RESTful APIs, database management, and server-side programming under the mentorship of a senior developer.
- I have successfully integrated third-party APIs into applications and excel in data modeling and performance optimization
- Backend developer with a strong focus on e-commerce, I bring a wealth of experience in designing, developing, and maintaining the core infrastructure of online retail platforms

Web Developer

Ex-Intern at TechAhead

11/2022 - 02/2023

New Delhi, India

TechAhead is a premier provider of desktop app development and UX design services, Web development trusted by companies of all sizes - from Fortune 500 to startups. Since 2009, TechAhead have been delivering innovative and impactful solutions that have helped businesses and organizations across the globe. With a portfolio of over 2000 successful projects

Achievements/Tasks

- I was working there as a Front-End Developer .Majorly dealing with Designing and Building of Webpages using HTML CSS and React.js.
- My designs are thoroughly tested and optimized to work seamlessly across different web browsers and platforms, ensuring a consistent 3D experience for all users.
- I prioritize user-centered design, ensuring that 3D elements enhance usability, navigation, and interactivity, resulting in a seamless and intuitive experience.
- I create 3D websites that adapt to various screen sizes, ensuring that the experience remains engaging whether viewed on a desktop, tablet, or mobile device.
- Developed interactive dashboards that provide users with real-time data insights using Chart.js and other data visualization tools.
