Project: -

- **Name:** Swastik Wealth care
- **Technology:** Django, Html, CSS, Bootstrap, JavaScript
- **Tools:** VS Code, Postman etc.
- **Team Size:** 5
- **Duration:** 5 months

Project Description: -

Swastik Wealth care is an innovative investment platform designed to facilitate seamless money management for customers. This application enables users to invest their funds and withdraw money efficiently. It features a unique rank-wise investment system, allowing customers to invest according to different ranks and earn returns accordingly. The platform ensures a user-friendly experience, offering secure transactions and real-time updates on investments.

With a focus on customer satisfaction and financial growth, Swastik Wealth care stands out as a reliable and efficient solution for managing personal investments.

Roles and Responsibilities: -

- Designed and implemented responsive and intuitive user interfaces using HTML, CSS, and JavaScript to enhance user experience.
- Collaborated with designers to convert mock-ups and wireframes into responsive web pages.
- Utilized CSS media queries and flexible grid layouts for adaptive designs.
- Integrated JavaScript functionalities to enable dynamic content updates and user interactions.
- Conducted thorough testing of front-end code to identify and resolve bugs and issues.
- Utilized developer tools for debugging and ensuring code quality.

Project: -

- **Name:** Treeranga
- **Technology:** Django, Html, CSS, Bootstrap, JavaScript
- **Tools:** VS Code, Postman etc.
- **Team Size:** 5
- **Duration:** Present

Project Description: -

Developed a comprehensive e-commerce platform named Treeranga, a website specializing in unisex t-shirts. The platform offers functionalities similar to major e-commerce sites like Flipkart, providing a seamless shopping experience for users. Key features include product browsing, detailed product pages, a shopping cart, and multiple payment options. The website is designed to be user-friendly, responsive, and secure, ensuring a high level of customer satisfaction.

Roles and Responsibilities: -

- Designed and implemented responsive and intuitive user interfaces using HTML, CSS, and JavaScript to enhance user experience.
- Created reusable components for product listings, shopping cart, and checkout process.
- Implemented interactive elements such as product image galleries, size selectors, and color options.
- Developed product pages with detailed information, reviews, and ratings.
- Integrated a robust shopping cart system with add, update, and remove functionalities.
- Enhanced user interactions using JavaScript for real-time updates and dynamic content rendering.

WordPress Project: -

- Set up product pages with detailed descriptions, images, and pricing information.
