TECHNICAL SKILL:

CoreJava , javascript

HTML, CSS, Bootstrap5,Angular

Nodejs, MongoDB

INTERNSHIP:

Organization – Evable India Private Limited, Bhubaneswar

Duration – 4th May 2023 to 31 October 2023

Description – I have worked here as Developer intern in 2 projects using Angular and HTML,CSS,Javascript

Projects Undergone:

1. Library Management System:

- From Frontend using Angular I have organised resources so that they are easy for library users/librarian to find books from collection.
- Managing the issuing and returning of the book from library's stocks.

- Manage and track the daily work of the library such as issuing books, returning books, Due calculations etc.
- . It aims to provide an intuitive and user-friendly Interface for students, faculty, and librarians to interact with the library's resources, search for books, manage borrowing and returning of Materials, and facilitate administrative tasks.

2. Baripada Women's College Website (Using HTML,CSS,Javascript)

- Designed and developed a fully functional college website using HTML, CSS,Bootstrap, and JavaScript
- Implemented responsive design principles to ensure optimal user experience on various devices.
- Integrated dynamic elements, such as interactive forms and event calendars, to enhance user engagement.Collaborated with a team to gather requirements, plan the project, and meet tight deadlines.Maintained and updated the website to ensure it remained current and functional.
- Create a separate Admin panel accessible via authentication.
- Implement functionalities to dynamically update website contents.

Organization : Vernacular Medium, Bhubaneswar(Virtual)

Duration – Oct 2022-Dec 2022

Description - Built Get Tech Hub project using HTML, CSS, and JAVA. My role was Frontend part.

ACADEMIC PROJECT:

1. An Improved security localization based on Dv-hop Against sybill attack in Wireless Sensor Network.

Jan 202 -may 2020

Objective: The application decreases the positional error by using improved Localization DV-Hop algorithm. Here, the method enhances the process Of positioning of Dv-Hop and including the latest principles of "hop Discrepancy and "neighboring sets collection" in order to improve the effects of protection situation.
