SUMMARY

Innovative and detail-oriented Front-end React.js Developer with 1.4 years of experience in designing and developing responsive web applications. Proficient in leveraging React.js ecosystem tools and libraries to build scalable and user-centric interfaces. Strong collaborative and communication skills, with a passion for staying updated with emerging technologies in the front-end development landscape.

WORK EXPERIENCE

Frontend Developer

Jan 2023 - present

Developed interactive and responsive user interfaces using React.js for Grocery App. Implemented state management solutions such as Hooks to efficiently manage application state and data flow. Collaborated with designers and backend developers to integrate front-end components with RESTful APIs. Optimized application performance by identifying and resolving bottlenecks in the codebase. Conducted code reviews and provided constructive feedback to team members to maintain code quality and

Associate Executive

Aug 2018 - Sep 2021

At Delhivery Pvt Ltd, I played a pivotal role in the codinate project, showcasing my expertise in coordination and support. With a strategic mindset, I contributed significantly to project milestones, ensuring seamless execution. My responsibilities encompassed efficient problem-solving, demonstrating versatility and dedication.

PROJECTS

Grocery website

Developed an online grocery delivery platform aimed at providing users with a convenient shopping and delivery experience. Implemented the frontend of the platform using Vite + React, ensuring a smooth and responsive user interface. Styled the application using CSS to enhance visual appeal and user experience. Utilized Axios for making asynchronous HTTP requests to fetch and send data to the server. Frontend: Vite, React, CSS, JavaScript, HTML, Framer Motion Backend: MongoDB, Express Additional Tools: CORS, Axios

Flight Booking website

Designed and implemented a flight booking application with a focus on seamless data storage and retrieval. Developed the frontend user interface using React, HTML, CSS, and leveraged Framer Motion for enhanced animations. Implemented backend functionality using Express.js to handle API requests and interact with MongoDB for data storage Technologies Used:

EDUCATION

2012 - 2016 BTech in Electronics & Telecommunication at **BPUT**

(8.7 CGPA)

SKILLS

Frontend Skills HTML5, CSS5, Tailwindcss, Javascript, React.js, Bootstrap
Backend Skills Node.js, Express.js, MongoDB, Axios, Cors
