10th

St.Xaviers High School

2018

TECHNICAL SKILLS

- Core Java
- HTML
- CSS
- Oracle db
- mySql
- Communication Skills

LANGUAGE

- English
- Hindi
- Odia
- Bengali

PERSONAL STATEMENT

I am a motivated and detail-oriented web developer with a solid foundation in front-end and back-end technologies. Proficient in HTML and CSS for building responsive and visually appealing websites, with basic knowledge of JavaScript for adding interactivity. Skilled in managing and querying databases using MySQL and Oracle. Eager to apply strong technical skills and problem-solving abilities to contribute to dynamic development teams and deliver innovative solutions.

YEAR DROP (2018-2019)

I have a one year drop after completing my 10th (2018-2019) due to some health issues and demise of my mother.

INTERNSHIPS

Exposys Data Labs

August 2024- September 2024
(1-Month)

Web Development Intern

- Developed front-end and back-end skills through hands-on projects using HTML, CSS and JavaScript.
- Gained experience in building responsive websites and improving user experience with modern web technologies.

Cognifyz Technologies

July 2024- August 2024
(1-Month)

Web Development Intern

- Developed front-end and back-end skills through hands-on projects using HTML, CSS and JavaScript.
- Gained experience in building responsive websites and improving user experience with modern web technologies.

Internship Studio

JUNE 2024- JULY 2024
(1-Month)

Web Development Intern

- Developed front-end and back-end skills through hands-on projects using HTML, CSS and JavaScript.
- Gained experience in building responsive websites and improving user experience with modern web technologies.

PROJECTS

Designed and Developed Smart Parking Management System

- Developed a full-stack web application to manage parking slot booking operations using Java (Spring Boot), HTML/CSS/JavaScript, Bootstrap 4, AJAX, jQuery, and PostgreSQL. Implemented real-time slot availability fetching, booking with automatic payment calculation, and responsive UI for enhanced user experience.

Designed and Developed Website Mass-Mail Dispatcher

- Creating a mass mail dispatcher using HTML, CSS, and JavaScript taught me how to effectively utilize front-end technologies to build dynamic and user-friendly interfaces while managing asynchronous processes to send emails efficiently. Additionally, it enhanced my understanding of integrating backend services or APIs for handling bulk email operations securely.
