Education

Ramgarh Engineering college Ramgarh

Bachelor of Technology in Computer Science and Engineering

Oct 2020 - June 2024

Ramgarh, India

Annada college Hazaribagh

Senior Secondary Education (75%)

June 2019

Hazaribagh, India

High School School, Hosir

Secondary Education (83%)

May 2017

Bokaro, India

Internship

Codezeal Technology Pvt. Ltd.

web Developer Intern - Html | CSS | MySql | Java

Github Repo

Apr- Aug 2023

- Developed a tourism website that aggregates content from various social media platforms. Implemented user authentication, allowing users to log in, connect their accounts, and view their feeds in one centralized location.
- Developed a yoga application using HTML, CSS, and Bootstrap for a responsive and modern design. Integrated user-friendly interfaces and interactive features.

Projects

Smart text reader for blind person using machine learning (Team Project)

Source Code

Machine learning | Final Year Major Project

- The Smart Text Reader incorporates advanced OCR and TTS technologies, achieving high accuracy in text recognition and producing natural-sounding speech output.
- Smart Text Reader represents a significant advancement in assistive technology, providing a practical solution for accessing printed text and promoting inclusion for visually impaired individuals.

Tourism website: Explore Limitless Adventures

Source Code

Html | CSS | MySql | Java | Bootstrap

- Developed a full-stack notes-taking application utilizing HTML, CSS, and Bootstrap for the frontend, and Java for backend development.
- Implemented a robust user authentication system with features such as user registration, login using Java Server Pages (JSP), and password hashing using Java's built-in security package.
- Enabled CRUD operations for users, allowing them to create, read, update, and delete notes. Data is stored in a MySQL database and managed using Java Servlets for backend routing.

Movie recommendation system

Source Code

Machine learning

- This project involves the development of a sophisticated movie recommendation system powered by cutting-edge machine learning technologies.

Technical Skills & Achievements

- **Programming:** C, SQL, Java, Basic Python
- **Web Technologies:** Bootstrap, HTML, CSS,
- **Libraries:** pandas, NumPy, Matplotlib

Certificates

- **C Nano-Degree Course, Preplnsta**
- **Machine Learning, Internshala**
- **Machine learning & AI from Preplnsta**

Internship & Training

- **Web Development, Brightcode software services Private limited, Ranchi.**
- **Machine learning and Natural language Processing at IIT PATNA.**
