Language

- English
- Hindi

Hobbies

- Playing Badminton and Volleyball
- Listening music
- Travelling

Strengths

- Dedicated and Decision maker
- Team Leader
- Fast learner

Summary

Motivated and results-oriented Front-End Developer with 2 years of experience building and enhancing user interfaces for web applications using Angular. Proven ability to collaborate effectively with stakeholders, clients, and developers to deliver high-quality solutions within deadlines. Currently on notice period.

Projects

ITW 1.0

- Contributed to ITW 1.0 platform development using HTML5, CSS3, and TypeScript.
- Built reusable UI components and implemented modular design principles.
- Performed cross-browser testing and debugging to ensure consistent application performance.

ITW 2.0

- Developed and maintained the single-page application (SPA) front-end using Angular framework.
- Individually designed and developed the **Role Management module**, enabling granular control over user access and permissions within the application.
- Implemented a comprehensive **User Management system**, including user creation, editing, and deactivation functionalities.
- Built the **Topics module**, facilitating the organization and categorization of content within the application. Developed a dynamic tagging system that facilitated the classification of M topics in N categories.
- Enhanced search functionality, leading to a 90% increase in the discovery of relevant content.
- Developed the **Library Management module**, allowing users to upload, manage, and access various learning resources. Created a robust search and filtering system, allowing users to find resources 80% faster than previously.
- Implemented responsive design principles to ensure optimal user experience across various devices.
- Integrated external APIs and services for efficient data retrieval and display.
- Wrote unit tests to maintain code quality and stability.
- Participated in code reviews and collaborated with teammates for efficient development.

Consultant

- Provided technical expertise and consulting services to various clients on Angular projects.
- Conducted client demos to showcase application functionality.
- Led enhancement initiatives based on client feedback, contributing to the continuous improvement of the application.
- Deployed applications on client servers and ensured smooth integration with backend systems.
- Implemented client feedback and requests to enhance application features and usability.
- Collaborated with backend developers for seamless front-end/back-end interaction.

Technical Skill

- **Front-End:** Angular (2.0 and above), HTML5, CSS3 (incl. SASS/LESS), TypeScript, Bootstrap, Responsive Design
- **Dev Tools:** VS Code, Webpack, Git, Chrome DevTools, Sqlyog
- **Project Management:** Requirement gathering, analysis, implementation, Client consultation and communication, Deployment and server integration
- **Additional Skills:** API Integration, UI/UX Design Principles, Unit Testing, Client Demos, Application Deployment, debugging skills

Professional Experience

- Delivered successful presentations and demonstrations of the ITW 1.0 platform to over 35 clients.
- Received positive feedback from clients on the usability and functionality of the platform.
- Tailored presentations to address specific client needs and concerns, resulting in high client satisfaction.
- Implemented responsive designs and ensured cross-browser compatibility.
- Collaborated with the development team to design and implement new features.
- Developed engaging and responsive user interfaces for different web applications.
- Participated in code reviews and provided constructive feedback.
- Worked closely with the backend team to integrate frontend with Restful APIs.
- Optimized application performance and improved loading times.
- Conducted thorough testing and debugging to ensure high-quality deliverables.
- Assisted in the documentation of software requirements and specifications.

Education

- 2017-2021 University of Calcutta, West Bengal
 B. Tech in Polymer Science and Technology with 8.17 CGPA.
- 2014-2015 Govt +2 High School Birpur, Supaul
 Higher Secondary in Science with 75.20% (BSEB, Patna).
- 2012-2013 Govt High School Birpur, Supaul
 Matriculation with 70% (BSEB, Patna).
