PROFESSIONAL EXPERIENCE

PHP/Laravel Developer

Visital Technology, Bhubaneswar | March 2024 - Present

Project: Doctor Clinic Management System

Description: Developed a web application for managing patient records, prescriptions, and clinic administration.

Tech: PHP, Laravel, HTML, CSS, JavaScript

Responsibilities:

Designed modules for patient registration, appointments, and admin controls.

Implemented secure login, role-based access, and data encryption.

Optimized UI for responsiveness across devices.

Project: Santali Education Board Portal

Description: A web portal for managing school registrations, student data, payments, and printable documents.

Tech: Laravel, MySQL, Razorpay API, HTML/CSS, JavaScript, ajax, bootstrap

Responsibilities:

- Designed and developed a Laravel-based education platform for admin, school, and student management.
- Integrated Razorpay payment gateway for secure online fee collection with backend order verification.
- Implemented custom role-based dashboards with dynamic data fetching and conditional UI rendering based on user type.
- Built student and school registration modules with validated forms, file uploads, and relational database structure.
- Generated admit cards and certificates using browser print functionality, styled via HTML/CSS for accurate layout and easy user access.

Project: Astroyaari Website

Tech: PHP, Laravel, Blade, HTML, CSS, Bootstrap

Description: Developed an astrology platform with dynamic Kundali reports.

Responsibilities:

Integrated APIs to fetch and process astrological data.

Designed responsive pages using Blade templates and Bootstrap.

Built Laravel controllers for efficient data flow and scalability.
