PROFESSIONAL OVERVIEW

Results-driven **Senior UI/UX Developer and Frontend Engineer** with 8+ years of experience delivering scalable, user-centric web and mobile applications for enterprise and SaaS platforms. Strong expertise in **design systems, React-based architectures, accessibility, usability testing, and performance optimization**. Proven ability to collaborate with cross-functional Agile teams, mentor junior developers, and translate business requirements into intuitive, high-performing digital experiences.

TOTAL EXPERIENCE (8+ Years)

Organization	Role	Duration
Sudrives Pvt. Ltd.	Sr. UI/UX Developer	Aug 2023 – May 2025
Sudrives Pvt. Ltd.	UI/UX Developer	Jul 2021 – Jul 2023
Activegraphy Value Design	UX & Software Engineer	May 2018 – May 2021
Activegraphy Value Design	Jr. UX & Software Engineer	May 2017 – May 2018

FREELANCE PROJECTS

1. Freelance UI/UX Designer & Frontend Consultant

Role: Sr. UX Engineer
Tools and Technologies: Figma, React.js, Next.js, Redux, Tailwind CSS, Material UI, REST APIs, Git

- Led end-to-end **UX design for a SaaS web application**, from requirement discovery to high-fidelity UI.
- Created **user flows, wireframes, interactive prototypes, and a scalable design system** in Figma.
- Designed a **mobile app experience** for a tailoring service, optimizing booking and order-tracking flows.
- Conducted **user journey mapping and wireframing** to reduce friction in onboarding and customization steps.
- Designed a **conversion-focused gym website** with a modern dark theme and strong visual hierarchy.
- Structured pages for programs, trainers, schedules, and contact flows to improve user engagement.
- Applied **responsive design principles** to ensure seamless experience across devices.
- Designed intuitive and accessible websites for two educational institutions.
- Structured **information architecture** for admissions, academics, events, and announcements.

PROJECTS

2. Enterprise SaaS Web Applications – Sudrives Pvt. Ltd.

Role: Sr. UI/UX Developer
Technologies: React.js, Next.js, Redux, Tailwind CSS, Material UI, REST APIs, Git

- Architect-ed a centralized design system** with reusable UI components, tokens, and layout patterns, improving UI consistency across multiple enterprise applications.
- Reduced frontend development effort by 30%** by standardizing components, documentation, and usage guidelines.
- Designed responsive dashboards and workflow-driven interfaces for **SaaS portals**, ensuring scalability and maintainability.
- Enforced accessibility best practices (**WCAG**) and usability standards across all new features.
- Mentored junior developers** and conducted design reviews to ensure adherence to UX and coding standards.

3. Mobile-First Product Revamp – Sudrives Pvt. Ltd.

Role: UI/UX Developer

Technologies: React.js, JavaScript, CSS3, Bootstrap, REST APIs, Agile

- Led a **mobile-first redesign** of core product features to enhance usability on handheld devices.
- **Reduced prototype approval cycles by 40%** through rapid iteration, stakeholder demos, and feedback loops.
- Improved frontend **performance and rendering efficiency**, reducing load times by 20%.
- Collaborated closely with backend engineers to **integrate APIs** and ensure seamless data flow.
- Delivered sprint-based releases aligned with **Agile methodologies**.

4. Enterprise Web Platforms – Activegraphy Value Design

Role: UX & Software Engineer

Tools and Technologies: React.js, CSS3, Bootstrap, REST APIs, Responsive Design, Figma

- **Owned end-to-end frontend delivery** for high-traffic enterprise applications.
- **Increased overall user satisfaction by 18%** through improved layout, navigation, and interaction patterns.
- Optimized onboarding flows by **refining UI and API integrations**, reducing user drop-offs by 12%.
- **Conducted usability testing** and incorporated feedback into iterative design improvements.

5. MVP Product Development & UX Optimization – Activegraphy Value Design

Role: Jr. UX & Software Engineer

Tools and Technologies: HTML, CSS, JavaScript, UX Research, C#, Unity3D, Adobe Illustrator.

- Built frontend interfaces for **two MVP products**, aligning UX design with business goals.
- Improved navigation and engagement using behavior analytics, increasing interaction by 10%.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux

UI Frameworks: Tailwind CSS, Bootstrap, Material UI, Styled Components

UX: Figma, Design Systems, Wireframing, Prototyping, Usability Testing, Accessibility (WCAG)

Backend: Node.js, Express.js, REST APIs, JSON, Axios, Postman

Tools: Vite, Webpack, NPM, Git, GitHub, WordPress

Methodologies: Agile, Responsive Design, Mobile-First, Cross-Browser Compatibility, SEO

ACADEMICS

Bachelor of Engineering in Information Technology – Savitribai Phule Pune University

CERTIFICATIONS

Digital Skills: User Experience (Accenture)

React JS (Scaler)

Introduction to Generative AI Studio

AI Agents for Beginners

Startup School: Prompt to Prototype
