Experience

SEEREE Pvt. Ltd.

Feb 2024 – Aug 2024

Web Developer

Bhubaneswar, India

- Implemented user-friendly features including seamless **sign-up** and **sign-in** processes, **profile updates**, **document uploads** and **retrievals**; enhanced overall user satisfaction as reflected in a 30% increase in positive feedback.
- Designed and launched essential components for a **health care management system** that **emphasized security** during user onboarding; achieved over 500 **unique account** creations while ensuring seamless access to profiles within one month.
- A comprehensive, centralized **dashboard designed for administrators** to efficiently manage user profiles, monitor healthcare records, and oversee system operations. This dashboard **allows admins to view and control user access**, approve or reject document uploads, generate insightful reports, and maintain overall system integrity, providing a simplified and secure experience for **healthcare data management**.
- Integrated secure in-web messaging and notification features, allowing patients to receive timely updates on **appointment statuses**, **document approvals**, and system alerts, improving patient-provider communication and user experience.

Personal Projects

Online Banking System

Sep 2024 - Nov 2024

- Engineered key functionalities within the online banking platform such as **deposit/withdrawal** processes through robust coding practices in Python via Django while leveraging SQL for reliable data handling without significant downtime.
- Developed comprehensive product management capabilities enabling **efficient addition, modification, and removal** of items from inventory; as a result, reduced manual entry errors by five instances each week across key transactions.
- Architected key features in the online banking application, focusing on seamless deposit and withdrawal processes; established a streamlined coding protocol that **reduced the average transaction time** by 30 seconds.

Leave Application

Oct 2024 - Nov 2024

- Developed a dynamic, user-friendly leave application webpage to streamline the **leave request and approval** process.
- Implemented features such as form validation, **user authentication**, real-time leave status updates, **leave history tracking**, and approval/rejection notifications.

Education

Nalanda Institute of Technology

Oct 2022 – Apr 2024

Master Of Computer Applications

Bhubaneswar, Odisha

CGPA 8.28

Soft Skills

Problem Solving: Ability to identify and resolve issues quickly, ensuring smooth functionality and user experience.

Attention To Detail: Thorough in testing and debugging to ensure accuracy in form validation, data handling, and status updates.

Time Management: Skilled at prioritizing tasks and managing time effectively to meet project deadlines.
