Master Of Computer Application: 09/2021

Berhampur University - Ganjam, Odisha, India GPA: 6.84

Bsc.ITM. Information Technology Management, 08/2019

Nabapravat Academy for Management Education-

Salipur, Cuttack, Odisha, India

GPA: 6.32

COMPANY PROJECTS

SBD Contech – Invoice & Stock Management System

Tech: React.js, Material UI, HTML, CSS, JavaScript

- Contributed as a **Junior Frontend Developer** to build a **consumer–vendor invoice and stock management system**.
- Designed and developed a **modern, user-friendly UI** using **React.js** and **Material UI**, ensuring visual consistency across modules.
- Integrated **REST APIs** to manage stock, vendor, and consumer data, enabling smooth data flow and efficient record handling.
- Implemented **responsive layouts** to ensure seamless usability across devices.

Gowbell – Exam Management Portal

Tech: React.js, Material UI, REST API

- Collaborated on a **web platform** for an **exam conduction organization** to manage schools, student participation data, and question paper distribution.
- Integrated **REST APIs** for real-time fetching and updating of student and school records.
- Enhanced **UI workflow, readability, and interactivity** to improve the overall user experience.

PERSONAL PROJECTS

Travasure – Travel Themed Web Application [GitHub](#) | [Live](#)

Tech: React.js, Tailwind CSS, Framer Motion

- Built a travel-themed web application featuring interactive UI, smooth animations, and seamless navigation.
- Implemented dynamic page transitions and engaging design for an enhanced user experience.

Real Estate Website [GitHub](#) | [Live](#)

Tech: React.js, Tailwind CSS, Framer Motion

- Developed a modern real-estate listing website with animated transitions, filter functionality, and dynamic property cards to improve user engagement.

Country Information App [GitHub](#) | [Live](#)

Tech: React.js, REST API

- Created an interactive country info app that fetches real-time data such as flags, population, and regions using public APIs.

Quick Job Finder – Job Search Application [GitHub](#) | [Live](#)

Tech: React.js, REST API

- Designed a job search platform displaying job listings with filter options (role, location, category) using real-time API data.

PERSONAL PROJECTS

English (Proficient) Odia (Native) Hindi (Native)
