Skill

- HTML
- CSS
- ASP.NET MVC
- Bootstrap
- Javascript
- Reactjs
- WordPress
- Responsive Design
- Test Case Design and Execution
- Bug Reporting and Tracking
- Cross-browser and device testing
- C# (Soft skill)
- NodeJS (Soft skill)

Education Background

- Black Diamond College of Engineering & Technology, Jharsuguda
Bachelor of Technology in Computer Science and Engineering
Completed in 2021
- SK DAV Govt. Polytechnic
Diploma in Information Technology
Completed in 2017

About Me

Hello there! 🙋 I'm a dedicated and results-driven professional with two years of hands-on experience in the dynamic world of **front-end development and manual testing**. I thrive on creating seamless, user-friendly interfaces that not only meet but exceed the expectations of clients and end-users alike.

In my front-end development journey, I've honed my skills in HTML, CSS, ASP.NET MVC, Wordpress, Reactjs, Bootstrap and JavaScript to transform innovative ideas into visually appealing and responsive websites. I understand the importance of crafting interfaces that not only look great but also provide an exceptional user experience. My proficiency extends to using popular frameworks and libraries, ensuring efficient and effective development processes.

Complementing my development expertise, I bring a meticulous and detail-oriented approach to manual testing. I've successfully identified and resolved software issues, ensuring the delivery of high-quality products. My keen eye for detecting bugs, coupled with my ability to create comprehensive test cases, has contributed to the overall improvement of software reliability.

If you're looking for a professional who combines technical proficiency with a passion for delivering exceptional user experiences, you've come to the right place. I'm excited about the opportunity to contribute my skills and expertise to create cutting-edge web solutions that leave a lasting impression. Let's build something amazing together!

Certification & Internships

Full Stack Web Developer

2022

- Certified [Full Stack Web Development Internship Program], [Edureka] – A Full Stack Developer
- A Full Stack Developer is someone who works with the Back End or server side of the application as well as the Front End, or client side.
- Some of the responsibilities of a Full Stack Developer include: Helping with the design and development of software. Testing and debugging software to keep it optimized.

Professional Experience (Abacus)

Software Engineer–Frontend Developer & Manual Tester

- Collaborated with UX/UI designers to implement visually appealing user interfaces and enhance the overall user experience.
- Developed and maintained responsive and visually appealing front-end interfaces using HTML, CSS, JavaScript, Reactjs, ASP.NET MVC
- Implemented responsive designs using CSS frameworks like Bootstrap, ensuring a consistent look and feel across devices.
- Worked closely with QA teams to identify and resolve bugs, ensuring a smooth and error-free user experience.
- Conducted manual testing procedures to identify software defects, ensuring functionality, usability, and compatibility across multiple browsers and devices.
- Documented test cases, reported issues, and collaborated with developers to resolve bugs and improve overall product quality.
- Participated in sprint planning meetings and daily stand-ups to track project progress and priorities.
- Engaged in continuous learning and training sessions to stay updated with the latest frontend development trends and technologies.

Academic Project Highlights

JESSICA : ADVANCED VOICE ASSISTANT

ABOUT THE PROJECT

- We are all aware about Cortana, Siri, Google Assistant and many other virtual Assistants which are designed to aid the tasks of users in Windows, Android and iOS platforms.
 - Voice assistant can make calls, send text messages, look things up online, provide directions, open apps, set appointments on our calendars and initiate or complete many other tasks.
-
