Professional Summary

M.Tech graduate in Electronics and Communication Engineering with expertise in **semiconductor research, project management**, and **data analysis**. Proficient in **SCAPS-1D, MATLAB**, and CRM systems, with hands-on experience in simulations and office operations. Seeking roles in **technical analysis** or **project management** to leverage my research and administrative skills.

Core Competencies

- **Technical Expertise:** SCAPS-1D (Photodiode/Solar Cell simulation), MATLAB, Microsoft Office Suite (Excel, Powerpoint, Word), Google Workspace, CRM Software, LaTeX
- **Project Management:** Strategic Planning, Scheduling, Resource Allocation, Quality Management
- **Data Management:** Database Management, Data Visualization (Excel), Data Integrity, Record-Keeping
- **Soft Skills:** Communication, Team Collaboration, Problem-Solving, Quick learner

Professional Experience

Office Executive (Front Office Specialist)

Harshpriya Constructions Pvt Ltd, Bhubaneswar, Odisha

Jan 2024 – May 2024

- Led client and visitor relations, achieving a 15% improvement in client satisfaction based on feedback.
- Optimized appointment scheduling, enhancing efficiency through accurate calendar coordination.
- Managed CRM system with 100% data integrity, ensuring timely updates and smooth customer interactions.
- Streamlined office processes by assisting in administrative tasks such as document preparation and filing.
- Resolved client inquiries promptly, improving customer satisfaction and response times.

Education

M.Tech in Electronics and Communication Engineering

Siksha O Anusandhan University, Bhubaneswar, Odisha

July 2023

CGPA: 9.13

B.Tech in Electronics and Communication Engineering

Siksha O Anusandhan University, Bhubaneswar, Odisha

June 2020

CGPA: 8.41

Certifications

- **Introduction to Cybersecurity** – Cisco Networking Academy
- **Learning Microsoft 365 Copilot** – LinkedIn Learning
- **Data Analysis using Excel** – Great Learning Academy
- **Career Essentials in Cybersecurity** – Microsoft and LinkedIn
- **Agile Project Management** – HP Life

Virtual Internships

- **GE Aerospace** – Human Resources (HR) Job Simulation – Forage
- **Siemens Mobility** – Project Manager Job Simulation – Forage
- **Accenture USA** – Data Analytics and Visualization Virtual Experience – Forage
- **KPMG in the UK** – Introduction to Technology Job Simulation – Forage

Research Projects

M.Tech Major Project: Numerical Simulation of Antimony Chalcogenide-Based PIN Photodiode

Aug 2022 – July 2023

- Designed a **PIN heterojunction photodiode** using **Antimony Chalcogenide ($\text{Sb}_2(\text{S}_{1-x}\text{Se}_x)_3$)** as the active layer, focusing on sustainable materials with tunable band gaps.
- Conducted **numerical simulations** using **SCAPS-1D** to analyze **current-voltage characteristics**, **quantum efficiency**, and **responsivity** under **dark and illuminated** conditions.
- Optimized the device's **electrical and optical performance** by varying the **mole fraction**, improving its potential for use in high-efficiency **optoelectronic applications**.
- **Calibrated SCAPS-1D** for **Antimony Chalcogenide** and **Si-based PIN photodiodes**, improving **defect density analysis** and enhancing simulation accuracy.
- Derived key parameters such as **responsivity** and **quantum efficiency** under **100mW/cm² optical power**, demonstrating its potential for **high-efficiency photodetectors**.

M.Tech Minor Project: Calibration of SCAPS using Si-PIN Photodiode Feb 2022 – July 2022

- Calibrated the ****SCAPS-1D simulation**** tool using ****Si-based PIN photodiode**** models to ensure accurate simulation results.
- Improved the tool's accuracy by analyzing and optimizing key ****I-V characteristics**** for enhanced ****simulation performance****.
