

Yamuna Pilligoyila

Front-end Developer

✉ yamunpassul23@gmail.com

☎ +91 7893136503

I am a Front-end Developer with hands-on experience in developing dynamic and responsive web applications using multiple JavaScript & CSS frameworks. I have experience in implementing responsive web design and ensuring cross-browser compatibility. I have expertise at translating design concepts into pixel-perfect, user-friendly interfaces. I have worked on building web applications and integrating APIs with UI.

Projects and Work Experience

IRC, CCBP TECH 4.0 INTENSIVE PROGRAM

Dec - 2020

Took an online course to learn more about Web Development. Below are the projects that I had developed during the course.

Wikipedia Search Application

Feb - 2021

Role : Sole Contributor.

Developed custom wikipedia search application where user can search and view curated results and can see detailed explanation in wikipedia by clicking on the specific result.

Tech stack : HTML, CSS, JS, REST API, Bootstrap .

Link : yamuna.ccbp.tech

Mini App store

Feb - 2021

Role : Sole Contributor.

Developed a mini app store where user can search apps and view curated results in all available categories.

Tech Stack : HTML, CSS, Bootstrap, JavaScript, React.

Link : miniappstore.ccbp.tech

Innominds Software Pvt. Ltd - Software Engineer | 18 Months

May 2022 - Present

Reach Platform

Responsibilities:

- Implemented UI as per the provided UX wire-frames such as in vision and zeppelin screens.
- Involved in developing multiple pages responsively like Billing and Sim Activation Pages.
- Developed Re-usable components, for which we can send any data as prop and we can use that component on multiple pages.
- Processed profile form data in application using Formik validations.
- Managed content in Strapi and extracted the data from Strapi by making API calls.
- Resolved the bugs in the Components.
- Utilized GitHub as a code repository tool.

Tech Stack : React JS, Material UI, Redux, GitHub, TypeScript, Strapi CMS.

Project Description:

Reach Platform is a robust web application that consolidated multiple web applications into a single platform. By utilizing API calls to generate dynamic config files during build time, the platform efficiently loads applications based on templates, providing a flexible and user-friendly experience, Reach Enterprise offers a range of tailored mobile services and solutions to businesses, empowering them with reliable connectivity, and enhanced communication capabilities

Reach Mobile Enterprise MVNO

Responsibilities:

- Developed UI screens responsively as per the Figma designs.
- Written Unit Test Cases for multiple components using Jest.
- Resolved the bugs in the components.
- Utilized GitHub as a code repository tool.

Tech Stack : React JS, Material UI, Redux, GitHub, TypeScript, Strapi CMS.

Project Description:

This Reach Enterprise MVNO is a specialized web application designed to cater to the unique requirements of enterprise clients. As a Mobile Virtual Network (MVNO), Reach Enterprise offers a range of tailored mobile services and solutions to businesses, empowering them with reliable connectivity, and enhanced communication capabilities.

Innominds POC

Responsibilities:

- Developed responsive pages for the Innominds website and integrated the strapi API's for the content.
- Utilized Tailwind as the styling library and Next.js for the UI for server side rendering
- Integrated Google Analytics and monitored the logs.
- Implemented Social Media publishing, taken LinkedIn as a Platform and Implemented it in the website.

Tech Stack : NextJs, Strapi, Tailwind CSS, Git, Typescript,

Project Description:

This web application will be used by the Innominds to showcase the Innomind's achievements statistics, projects, specializations, etc and also this website will help Innominds to identify the potential clients.

Education

Z.P.H.S High School

2015

RAJIV GANDHI UNIVERSITY OF KNOWLEDGE AND TECHNOLOGIES (IIIT) Kadapa

2022

- Bachelor of Technology, CSE
- GPA: 8.46

Skills

- Frontend Technologies: React JS, HTML, CSS, JavaScript, TypeScript
- CSS Frameworks: Bootstrap, MUI, Tailwind CSS.
- Testing Frameworks: JEST
- Code Repository tool: GIT Hub
- IDE: Visual Studio Code and Sublime Text
- Form Library: Formik
- OS: Windows and Ubuntu
- Knowledge of: Next JS, Tailwind CSS, Bootstrap, Jest, RTL, GitLab, Python, MySQL

Languages

English - Full Professional Proficiency

Telugu - Native or Bilingual Proficiency
